Section 3: Comments

What do you feel are the strengths of this course?

Comments
The strengths of this course are class discussions and student engagement.
I really appreciate the video lectures that are included each week – it really helps me understand material when I can hear someone explain it in addition to read it. It also made this feel less like a virtual class!
The strengths of this course are in the continuous interaction on a weekly basis with the other students. I was impressed with the efforts all my classmates took to engage with others.
Online discussions, collaboration between students

What would you change to improve this course?

Comments
I would figure out a better way to organize this course. There is a requirement of 5 quizzes and 2 peer evaluations. Seeing those show up, along with additional readings, in each module can be overwhelming.
Nothing at this time – I really enjoyed this course and look forward to taking more course with Dr Lin in the future!
I can think of nothing I would change.
A little more clarity in the focus of the philosophy paper
